

To Whom it May concern!

KLove Radio is a beacon of hope in my community. I and many others like me, tune to KLove on a daily basis to be uplifted by the word of God and songs that glorify and praise him. There is no other Christian radio station that I can listen to on my AM or my FM dial within a 50 mile radius. I listen in my car and at home. KLove also allows non-profit agencies in my community to send in announcements for area happenings. I understand that if a low power fm station is allowed in this area, I may lose the ability to pick up KLove and I do not want that to happen. My people who do not go to church tune into this radio station and hear the gospel and uplifting music and it gets them through their day. The service that KLove provides is invaluable and a great service to the public. I urge you to reconsider the placement of low power fm stations in this area.

Thank you! Karen J. Gardeski
